SUNNY MOON

Our Games

We love to create mobile games that reach far yet connect deeply. From original game concept art to illustration styles; from unique game character design to charming 2D/3D animations, our games are stories that were waiting to be told. And our game design process? 100% human creativity!

Let's Build Your Game World

Our Services

At Sunnymoon Project, we believe that the best results come from the intersection of emotional depth and innovative tech. Our animation and game design services blend creativity, storytelling, and technical precision. Here are our cost-effective, collaborative and client-centric services:

Visual Development

Our game environment design artists align artistic elements with your narrative, gameplay and platform needs. Your games get an unforgettable visual identity!

Learn More →

2D/3D Animation

Animations are stories in stylized motion. Our game animation services turn characters and environments into fluid, realistic and performance-ready assets.

Learn More →

Character Design

From original concepts to expressive personalities, our character designs are valued for human creativity and fitting the game world perfectly!

Learn More →

Logos

An iconic logo is your brand's identity. Get from us logos which capture your brand's essence, appeal to your target audience and work seamlessly across platforms.

Learn More →

UI/UX

It's always 'players-first' in our game UI/UX design philosophy. Get from us clean, seamless and engaging UI that ensures player engagement.

Learn More →

Illustrations

Want style, emotion, and depth in your game's universe? Our artwork for key art, marketing, lore, or in-game content ensures you get that, and more!

Why Choose Sunnymoon Project

Expertise and Experimentation ⊖

We have valuable and trusted experience in crafting captivating visuals and immersive experiences, using the latest tools and software. Our team is constantly experimenting and innovating. We explore cultures which are usually not highlighted in games, and also try different ways to bring emotional depth through gameplay mechanics and visuals.

Client-First Approach ⊕

Crafted by Hand, Supported by Technology ⊕

NDA & Intellectual Property ⊕

Integrity and Transparency

Meet The Founders

Rita Khodur

Co-founder, Project Manager, Illustrator

Manages project timelines, client communication, and visual direction. Balances creative vision with production goals to keep everything moving forward.

Karen Khodur | Korny

Lead Animator, Common sense

Leads animation across all projects, bringing characters and environments to life with fluid, expressive motion that matches each project's tone and style.

Dahlia Khodur

Co-founder, UI Designer, Studio Manager

Oversees studio operations and leads UI design with a sharp eye for detail and usability. Ensures every screen feels intuitive and refined.

Our Story

Testimonials

"Working with Sunnymoon on character development was a seamless and inspiring experience. Their creativity, professionalism, and strong focus on character design made the collaboration both enjoyable and impactful. Always a pleasure to team up with them."

Omar Baydoun Founder
Portable Talents

"Sunny Moon, just like its name, is a place where your creativity truly blooms. Whether through the games they release or their social media insights, they bring a dose of sunshine to everything they do. "

Noura Sammoura
Communication Designer

"The team's creative and professional character development made collaborating with Sunnymoon smooth, inspiring, and highly effective. Excited to keep working together!"

Mira Chiala
TheFabKids Creator
